Contents of Volume 29

Vol. 29 No. 1

Introduction

R. J. Walker — 1 — Scientific Career and Main Scientific Achievements of Professor Katalin S.-Rózsa, Dr. Sci.

Reviews

G. Kemenes — 7 — *In vivo* neuropharmacological and *in vitro* laser ablation techniques as tools in the analysis of neuronal circuits underlying behavior in a molluscan model system

K. Richter and G.-A. Böhm — 17 — The molting gland of the cockroach *Periplaneta americana*: secretory activity and its regulation

T. A. Miller — 23 — Control of circulation in insects

Original Papers

D. Sonetti, E. Ottaviani and G. B. Stefano — 39 — Opiate signaling regulates microglia activities in the invertebrate nervous system

G. A. Buznikov, L. N. Koikov, Yu. B. Shmukler and M. J. Whitaker — 49 — Nicotinic antagonists (piperidines and quinuclidines) reduce the susceptibility of early sea urchin embryos to agents evoking calcium shock

G. Láng, O. Kufcsák, T. Szegletes and J. Nemcsók — 55 — Quantitative distributions of different cholinesterases and inhibition of acetylcholinesterase by metidathion and paraquat in alimentary canal of common carp

R. B. Hill — 61 — Neurohumoral control of ionic pumping in molluscan muscle: III. cholinergic control of the response to low potassium levels

K. V. Azatian, S. N. Ayrapetyan and D. O. Carpenter — 67 — Metabotropic GABA receptors regulate acetylcholine responses on snail neurons

K. S.-Rózsa, S. S. Rubakhin, A. Szücs, T. K. Hughes and G. B. Stefano — 73 — Opposite effects of interleukin-2 and interleukin-4 on GABA-induced inward currents of dialysed *Lymnaea* neurons

J. Nemcsók, L. Hiripi, M. Patocskai, J. Salánki and O. Kufcsák — 79 — The effects of pesticides on monoaminergic system related to periodic activity of mussels (*Anodonta cygnea L.*)

E. I. Solntseva, J. V. Bukanova, R. U. Ostrovskaya, T. A. Gudasheva, T. A. Voronina and V. G. Skrebitsky — 85 — The effects of piracetam and its novel peptide analogue GVS-111 on neuronal voltage-gated calcium and potassium channels

R. P. Croll, M. W. Baker, M. Khabarova, E. E. Voronezhskaya and D. A. Sakharov — 91 — Serotonin depletion after prolonged chlorpromazine treatment in a simpler model system

T. Kiss and O. N. Osipenko — 97 — Effect of molluscan neuropeptide RAPYFVamide on identified *Helix pomatia* L. neurons

M. Ohtani, Y. Muneoka, O. Matsushima, T. Takao, Y. Shimonishi, A. R. White, S. Pedder, R. Sharma, M. A. Lennon, S. Katugampola and R. J. Walker — 103 — Isolation of bioactive compounds from *Helix aspersa* nerve tissue and the effect of pQPPLPRYamide on heart, esophagus and central neurons of *H. aspersa* and rectum of *Anodonta woodiana*

Vol. 29 No. 2

Reviews

P. S. Widdowson, M. G. Simpson and I. Wyatt — 113 — L-2-Chlorpropionic acid-induced neurotoxicity in the rat: a valuable model for studying selective neuronal cell death *in vivo*

K. C. Ong and H-E. Khoo	121	Biological effects of myricetin
J. Bondeson	127	The mechanisms of action of disease-modifying antirheumatic drugs: a review with emphasis on macrophage signal transduction and the induction of proinflammatory cytokines
C. Thomsen	151	The L-AP4 receptor
C. Thiemermann	159	Nitric oxide and septic shock
H. Parekh and Henry Simpkins	167	The transport and binding of taxol
A. Fernández-López, M. A. Chinchetru and P. Calvo Fernández	173	The autoradiographic perspective of central benzodiazepine receptors: a short review
C. Windmeier and A. M. Gressner	181	Pharmacological aspects of pentoxifylline with emphasis on its inhibitory actions on hepatic fibrogenesis
General Papers		
T. Utkan, T. Kaya and Y. Sarioglu	197	Effects of sympathectomy on endothelin-1 and histamine responses of rabbit carotid artery
F. R. Neto, O. Mesquita Júnior and G. B. Olivera	201	Antiarrhythmic and electrophysiological effects of the novel K_{ATP} channel opener, rilmakalim, in rabbit cardiac cells
C. F. Polo, A. M. Buzaleh, E. S. Vazquez, S. G. Afonso, N. M. Navone and A. M. del Carmen Batlle	207	Griseofulvin-induced hepatopathy due to abnormalities in heme pathway
C. Camello, A. I. Lajas, A. Gonzalez, P. J. Camello and J. A. Pariente	211	Histamine does not potentiate cyclic AMP-mediated amylase secretion in the guinea-pig pancreatic acinar cells
C. Pozzoli, E. Poli, A. Costa and F. De Ponti	217	Absence of histamine H_3-receptors in the rabbit colon: species difference
S. Kumar and H. N. Bhargava	223	Time course of the changes in central nitric oxide synthase activity following chronic treatment with morphine in the mouse: reversal by naltrexone
T. Yatsu, W. Uchida, O. Inagaki, A. Tanaka and T. Takenaka	229	Dopamine DA_1 receptor agonist activity in YM435 in the canine renal vasculature
C. Ivancheva, N. Pencheva and R. Radomirov	233	Pattern of nonadrenergic, noncholinergic responses during short- or long-lasting electrical stimulation in guinea-pig ileum
M. M. Winnicka and J. J. Braszko	239	6-OHDA lesions to the central amygdala abolish angiotensins facilitation of object recognition in rats
A. Alfieri and C. Gardner	245	The NK_1 antagonist GR203040 inhibits cyclophosphamide-induced damage in the rat and ferret bladder
B. H. Shah, B. Safdar, S. S. Virani, A. Nawaz, S. A. Saeed and A. H. Gilani	251	The antiplatelet aggregatory activity of *Acacia nilotica* is due to blockade of calcium influx through membrane calcium channels
C. R. da Silva and L. M. Bendhack	257	Thapsigargin does not affect phenylephrine-induced contractions in the anococcygeus muscle of rats
H. Z. Güney, C. Z. Görgün, U. Hodoğlugil and H. Zengil	261	Effects of auro-detoxin treatment on vascular responses in mouse aorta
R. DeLucia, C. S. Planeta, M. L. Aizenstein and C. Scavone	265	Repeated administration intensifies the reinforcing effect of fencamfamine in rats
T. B. Ng and W. Y. Chan	269	Polysaccharopeptide from the mushroom *Coriolus versicolor* possesses analgesic activity but does not produce adverse effects on female reproductive or embryonic development in mice
C. Pankucsi, T. Bányász, J. Magyar, I. Gyönös, A. Kovács, G. Szénási, A. Varró and P. P. Nánási	275	Electrophysiological effects of EGIS-7229, a new antiarrhythmic agent, in isolated guinea pig papillary muscle

J. L. Martínez and M. Penna 281 Influences of changes in calcium concentration, cocaine and clonidine on the cardiac effect of acetaldehyde in rat isolated atria

M. R. Zarrindast and A. A. Moghadamnia 285 Adenosine receptor agents and conditioned place preference

Book Reviews 291

Vol. 29 No. 3

Reviews

P. J. Pauwels 293 $5\text{-HT}_{1B/D}$ receptor antagonists

D. M. Zisterer and D. C. Williams 305 Peripheral-type benzodiazepine receptors

G. P. Biewenga, G. R. M. M. Haenen and A. Bast 315 The pharmacology of the antioxidant lipoic acid

General Papers

K. Tuovinen, E. Kaliste-Korhonen and O. Hänninen 333 Gender differences in activities of mouse esterase and sensitivities to DFP and sarin toxicity

K. Yamanaga, H. Shinyama, T. Akira, M. Iwamoto, T. Uchida, N. Nakamura and Y. Kagitani 337 AE0047-mediated calcium channel blocking in vascular smooth muscles

M. Satoh, K. Matsuo, H. Kiriya, T. Mashino, M. Hirobe and I. Takayanagi 345 Inhibitory effect of a fullerene derivative, monomalonic acid C_{60} on nitric oxide-dependent relaxation of aortic smooth muscle

C. Ito, R. Kawamura, Y. Isobe, K. Tsuchida, M. Muramatsu and S. Higuchi 353 Effect of a novel 5-hydroxytryptamine$_3$ (5-HT_3) receptor antagonist, GK-128, on 5-HT_3 receptors mediating contractions and relaxations in guinea-pig distal colon

K. Noguchi, K. Takahashi, H. Araki and S. Higuchi 361 Vasodilation profile of CD-832, a novel dihydropyridine derivative in rabbit aorta

B. L. Slomiany, J. Piotrowski and A. Slomiany 367 Cell cycle progression during gastric ulcer healing by ebrotidine and sucralfate

M. T. Matuszek and I. T. Gagało 371 The antipyretic activity of adenosine agonists

T. Nasu and T. Iwai 375 Changes of response to caffeine in Ca^{2+}-deficient medium in guinea-pig tenia coli

S. Karasaki, R. Sato and R. Katori 379 The blocking mechanism of sodium currents by a new class I antiarrhythmic drug, Ro 22-9194, in isolated guinea-pig ventricular myocytes

I. J. Chen, Y. C. Lo, W. J. Lo, J. L. Yeh and B. N. Wu 387 Capsazocaine: a capsaicin-sensitive functional antagonist displays an argument on sensory capsaicin receptor

H. N. Bhargava and S. Kumar 397 Effect of multiple injections of U-50,488H, a κ-opioid receptor agonist, on the activity of nitric oxide synthase in brain regions and spinal cord of mice

M. Minami, S.-i. Kimura, T. Endo, N. Hamaue, M. Hirafuji, Y. Monma, H. Togashi, M. Yoshioka, H. Saito, S. Watanabe, T. Kobayashi and H. Okuyama 401 Effects of dietary docosahexaienoic acid on survival time and stroke-related behavior in stroke-prone spontaneously hypertensive rats

M. del Mar Gladis-Villanueva, F. Usera and M. J. Toro 409 Denervation-induced supersensitivity to forskolin and pinacidil is not related to changes in the adenylate cyclase transduction pathway in the rabbit femoral artery

R. Gaggi, R. Dall'Olio, M. Santangelo and P. Roncada 415 Actions of nimodipine on the serotonergic systems of rat brain

C. D. Lewis and S. M. O. Hourani 421 Involvement of functional antagonism in the effects of adenosine antagonists and L-NAME in the rat isolated heart

J. C. Hancox 429 Amiodarone blocks L-type calcium current in single myocytes isolated from the rabbit atrioventricular node

P. J. Rice, S. T. Abraham, N.-Y. Huang and R. J. Doman — 437 — Extraneuronal uptake inhibitor U-0521 decreases contractile responses in rat vas deferens

K. Kramer, C. G. W. C. Smink and A. Bast — 441 — Effect of phospholipase A_2 activation on the receptor function in the rat left atrium: unmasking of a positive inotropic effect of methacholine

M. Abdollahi, A.-R. Dehpour and H. Rashidi — 447 — Inhibition by lithium of gentamicin-induced release of *N*-acetyl-β-D-glucosaminidase in rat submandibular saliva

M. Ukai, J. Monma, N. Shinkai, Y. Sasaki and T. Kameyama — 453 — Effects of Tyr-D-Arg-Phe-β-Ala-NH_2, a novel dermorphin analog, on elevated plus-maze learning and spontaneous alternation performance in mice

X. García, L. Cartas-Heredia, M. Lorenzana-Jímenez and E. Gijón — 457 — Vasoconstrictor effect of *Cissus sicyoides* on guinea-pig aortic rings

F. S. Abulaban, M. A. H. Dhariwal, A. M. Al-Bekairi and M. Raza — 463 — Antinociceptive activity of sodium valproate in mice after chronic treatment

M. Samini, A. R. Dehpour and S. Yousefnejad — 469 — The effects of dopaminergic and adrenergic drugs on twitch response of guinea-pig common bile duct

T. Tominaga, A. Watanabe, J.-i. Tsuji, A. Koda, H. Nagai, Y. Kumazawa and H. Shimada — 473 — The effects of TYB-2285 and its metabolites on lymphocyte responses *in vitro*

M. Bernardi, R. Deslauriers, J. Docherty, C. Rossi, L. Rossini, P. Rossini and C. Tonnini — 477 — Spectral analysis of intercycle heart fluctuations in *Xenopus laevis*, conscious or spinalized, treated with calcium channel blockers. Part I

R. S. Mathias, J. C. C. Carvalho, M. T. Cavalcante and S. de Moraes — 483 — Effects of simulated myocardial ischemic conditions on the responses of isolated human umbilical artery strips to 5-hydroxytryptamine and prostaglandin $F_{2\alpha}$

J. M. de Gandarias, J. Irazusta, D. Fernández, A. Varona, J. Gil and L. Casis — 489 — Effect of lidocaine administration on the enkephalin-degrading aminopeptidase activities in discrete areas of the rat brain

Book Reviews — 495

Vol. 29 No. 4

Reviews

M. Witvrouw and E. De Clercq — 497 — Sulfated polysaccharides extracted from sea algae as potential antiviral drugs

O. Cantoni and P. Giacomoni — 513 — The role of DNA damage in the cytotoxic response to hydrogen peroxide/histidine

General Papers

S. Gür — 517 — Effects of adenosine and isoprenaline in left atria from both neonatal and middle-aged noninsulin-dependent diabetic rat models

X. Y. Han, T. L. Salunga, W. Zhang, H. Takeuchi and K.-I. Matsunami — 523 — Modulation by APGW-amide, an *Achatina* endogenous inhibitory tetrapeptide, of currents induced by neuroactive compounds on *Achatina* neurons: amines and amino acids

X. Y. Han, T. L. Salunga, W. Zhang, H. Takeuchi and K.-I. Matsunami — 531 — Modulation by APGW-amide, an *Achatina* endogenous inhibitory tetrapeptide, of currents induced by neuroactive compounds on *Achatina* neurons: peptides

B. Fernández del Pozo, F. Pérez-Vizcaíno, C. Fernández, F. Zaragozá and J. Tamargo — 539 — Effects of several class I antiarrhythmic drugs on isolated rat aortic vascular smooth muscle

K. Shibasaki, Y. Arai, W. Uchida, T. Okazaki, M. Asano and T. Takenaka — 545 — Antianginal effects of YM430, a novel calcium entry–blocking and β-adrenoceptor–blocking agent in several experimental angina models

J. A. A. De Souza, H. R. De Oliveria, C. K. Miyasaka, F. Gacek, R. P. Torres, J. Mancini Filho and R. Curi — 551 — Changes in the activities of antioxidant enzymes of the lymphoid organs of 21-day pregnant rats due to administration of fish oil by gavage

I. Hisatome, Y. Tanaka, N. Sasaki, K. Hiroe, G. U. Ahmmed, M. Tsuboi, I. Manabe, T. Suga, Y. Yamamoto, A. Ohtahara, T. Kinugawa K. Ogino, O. Igawa, A. Yoshida, M. Saito, R. Sato and C. Shigemasa	557	Influence of extracellular H^+ and Ca^{2+} on Ro 22-9194-induced block of sodium current in cardiac myocytes
C. Karasu, G. Ozansoy, O. Bozkurt, D. Erdoğan and S. Ömeroğlu	561	Changes in isoprenaline-induced endothelium-dependent and -independent relaxations of aorta in long-term STZ-diabetic rats: reversal effect of dietary vitamin E
E. Gerez, E. Vazquez, F. Caballero, C. Polo and A. Batlle	569	Altered heme pathway regulation and drug metabolizing enzyme system in a mouse model of hepatocarcinogenesis: effect of veronal
H. Ueda	575	Multiple forms of AMPA-type glutamate receptor mRNA phenotypes in goldfish retina and tectum
S. Nikfar, M. Abdollahi, F. Etemad and M. Sharifzadeh	583	Effects of sweetening agents on morphine-induced analgesia in mice by formalin test
A. Saghyan, A. Hunanian and S. Ayrapetyan	587	Effect of locust poison on neuromembrane functional activity
H. Tsunobuchi-Ushijima and Y. Gomi	591	Effects of phorbol-12,13-dibutyrate and protein kinase C inhibitors on Mn^{2+}-dependent norepinephrine-induced contractions involving increase in Mn^{2+} sensitivity in Ca^{2+}-depleted vas deferens of the guinea pig
J. A. King, H. Huddart and W. G. Staff	597	Purinergic modulation of rat urinary bladder detrusor smooth muscle
V. Villagrasa, L. Berto, J. Cortijo, M. Perpina, C. Sanz and E. J. Morcillo	605	Effects of erythromycin on chemoattractant-activated human polymorphonuclear leukocytes
A. Labadía, G. Costa, E. Jimenez, D. Triguero and A. García-Pascual	611	Endothelin receptor–mediated Ca^{2+} mobilization and contraction in bovine oviductal arteries: comparison with noradrenaline and potassium
Y. Abu-Ghalyun, A. Masalmeh and S. Al-Khalil	621	Effects of allocryptopine, an alkaloid isolated from *Glaucium arabicum* on rat isolated ileum and urinary bladder
W. Zhang, H. Takeuchi, M. Kurono and M. Emaduddin	625	Ouabain-sensitive K^+-dependent outward current caused by threo-β-hydroxy-L-glutamic acid on snail neuron
T. Yoshimura, C. Kurita, T. Nagao, E. Usami, T. Nakao, S. Watanabe, J. Kobayashi, F. Yamazaki, H. Tanaka and H. Nagai	633	Effects of cAMP-phosphodiesterase isozyme inhibitor on cytokine production by lipopolysaccharide-stimulated human peripheral blood mononuclear cells
A. A. Almotrefi, M. C. Basco, A. Moorji and N. Dzimiri	639	Effects of amiodarone on ouabain binding to microsomal Na^+, K^+-ATPase in guinea-pig heart preparations
Y. Maruoka, Y. Ohno, H. Tanaka, H. Yasuda, K.-I. Ohtani, H. Sakamoto, A. Kawabe, C. Tamamura and M. Nakamura	645	Selective depression of the spinal polysynaptic reflex by the NMDA eceptor antagonists in an isolated spinal cord *in vitro*
J. P. De La Cruz, M. Mérida, J. A. González-Correa, P. Ortiz and F. Sánchez de la Cuesta	651	Effects of S-adenosyl-L-methionine on blood platelet activation
M. W. Fryer and W. E. Glover	657	Effects of 4-methyl-2-aminopyridine on [^{3}H]-noradrenaline overflow and contractility of isolated rabbit arteries
A. M. Silván, M. J. Abad, P. Bermejo and A. M. Villar	665	Adjuvant-carrageenan-induced inflammation in mice
H. Kröger, R. Miesel, A. Dietrich, M. Ohde, S. Altrichter, C. Braun and H. Ockenfels	671	Suppression of type II collagen-induced arthritis by *N*-acetyl-L cysteine in mice
M. Abdollahi, A.-R. Dehpour and M. Fooladgar	675	Alteration of rat submandibulary gland secretion of protein, calcium and *N*-acetyl-β-D-glucosaminidase activity by lead
S. I. Chandranath	681	*In vitro* administration of 17β-estradiol inhibits drug-induced contractions of the rat isolated seminal vesicle

K. A. Raheem, N. Ismael, A. Saad and S. El-Sayad 687 Gluconeogenic activity in response to chronic administration of amphetamine sulphate and drug withdrawal

Vol. 29 No. 5

Reviews
